Sammons Financial® is the marketing name for Sammons® Financial Group, Inc.'s member companies, including North American Company for Life and Health Insurance®. Annuities and life insurance are issued by, and product guarantees are solely the responsibility of, North American Company for Life and Health Insurance.

1. Known as a strategy fee annual percentage in the contract. The charge is multiplied by two for the two-year crediting strategy. In exchange for a charge, the client receives an enhanced participation rate. The charge will be deducted at the end of each term, or at the time of a full surrender or a partial withdrawal that exceeds the penalty-free withdrawal amount from the accumulated value allocated to the enhanced participation rate method. The strategy charge will be deducted regardless of the interest credited to the contract and can lead to loss of premium.

2. The annual index margin is multiplied by two when it is applied at the end of each two-year term, guaranteed for the life of the contract. The participation rate is applied after the index margin.

FOR FINANCIAL PROFESSIONAL USE ONLY. NOT TO BE USED FOR CONSUMER SOLICITATION PURPOSES.

Interest rates effective May 4, 2021

Please refer to the product disclosure or annuity contract for details on minimum guaranteed fixed rates and minimum/maximum crediting method rates.

The PrimePath® Pro is issued on base contract form NA1008A/ICCI6-NA1008A.MVA or appropriate state variation including all applicable endorsements and riders by North American Company for Life and Health Insurance®, West Des Moines, IA. Product and features/options may not be available in all states or appropriate for all clients. See product materials and state availability chart for further details, specific features/options, and limitations by product and state.

New business guidelines

Applications must be received in the Home Office prior to the effective date to hold previous rates. For rates on 1035 exchanges/transfers, the applicant will receive the greater interest rate in effect at the application received date or receipt of premium at the Home Office, if received within 45 days. If the 45th date is on a weekend or holiday, the funds need to be received by the previous business day in order to hold current interest rates, index cap rates, participation rates and index margins. Funds received after 45 days will receive the applicable rates that are in effect at the time of receipt. No exceptions will be allowed for rate holds. Interest rates are subject to change without notice.

Surrender charge: A surrender during the surrender charge period could result in a loss of premium. Surrender charge structure may vary by state.

Index accounts: Crediting methods such as index cap rates, participation rates, and index margins apply to index accounts only; not to the fixed account. Crediting methods and indexes may not be available in all states.

Morgan Stanley Dynamic Contribution Index: Any product that is linked to the performance of the Index is not sponsored, endorsed, sold or promoted by Morgan Stanley & Co. LLC, or any of its affiliates (collectively, "Morgan Stanley"). Neither Morgan Stanley nor any other party (including without limitation any calculation agents or data providers) makes any representation or warranty, express or implied, regarding the advisability of purchasing these products. In no event shall Morgan Stanley have any liability for any special, punitive, indirect or consequential damages including lost profits, even if notified of the possibility of such damages. The Index is the exclusive property of Morgan Stanley. Morgan Stanley and the Index are service marks of Morgan Stanley and have been licensed for use for certain purposes. Neither Morgan Stanley nor any other party has or will have any obligation or liability to owners of this product in connection with the administration or marketing of these products, and neither Morgan Stanley nor any other party guarantees the accuracy and/or the completeness of the Index or any data included therein.

No purchaser, seller or holder of this product, or any other person or entity, should use or refer to any Morgan Stanley trade name, trademark or service mark to sponsor, endorse, market or promote this product, without first contacting Morgan Stanley to determine whether Morgan Stanley's permission is required. Under no circumstances may any person or entity claim any affiliation with Morgan Stanley without the prior written permission of Morgan Stanley.

In calculating the performance of the Index, Morgan Stanley deducts, on a daily basis, a servicing cost of 0.50% per annum. This reduces the positive change or increase the negative change in the Index level and thus decreases the return of any products linked to the Index. The volatility control calculation applied by Morgan Stanley as part of the Index's methodology may decrease the Index's performance and thus the return of any products linked to the Index. In addition, because the volatility control calculation is expected to reduce the overall volatility of the Index, it will also reduce the cost of hedging certain products linked to the Index.
