**An important message regarding
a change in the RMD age**

NO ACTION REQUIRED.
This message is for your information only.

The SECURE 2.0 Act of 2022 was passed on December 29, 2022. Starting in 2023, the act raised the age at which Required Minimum Distributions (RMDs) from IRAs and retirement plans must begin from age 72 to age 73 for individuals born on or after January 1, 1951.

How this may impact you:

You may have received a letter from us in January 2023, which included the 2022 year-end Fair Market Value of your account with instructions to begin taking RMDs at age 72.

If you are turning 72 in 2023 or later (you were born on or after January 1, 1951) you do not need to take RMDs from your annuity contract until you turn age 73. You may delay taking your first RMD until April of the year following your 73rd birthday.

Note: Individuals who turned 72 before January 1, 2023 will be required to continue taking RMDs as scheduled.

Thank you. If you have any questions regarding RMDs or the SECURE 2.0 Act of 2022, we encourage you to consult your financial professional.
